

Bulkmaster™

MOBILE MANUFACTURING UNIT (MMU™)

Equipment productivity is a key driver in efficient blasting. Orica has the world's largest fleet of bulk explosives mobile manufacturing equipment.

Orica Mobile Manufacturing Units (MMU™s) lead the way in productive loading. These units feature Microprocessor systems that control the process of manufacturing and metering of bulk explosives on-bench.

There is a range of different sizes and configurations dependent upon mining methods and logistics of supply. The most suitable MMU™ for large scale operations is Orica's Bulkmaster.™

- High off road capacity (41t GVM) with fast delivery rates
- Suited to loading coal, overburden and interburden in large, productive coal mines
- Delivers up to three different types of bulk explosives in one pass
- Has the capability to manufacture and deliver all of Orica's open cut bulk products.

For further information please call PT. Orica Mining Services Indonesia on +62 21 572 3070 or register your interest at orica.com/contact and we will connect you with your local customer solutions specialist.

SPECIFICATIONS

Cab chassis

Make	Volvo FM440
Configuration	6x6
GVM	41,000 kg

Product capacity

Configurable bins giving the following maximum product capacities* (not with the same configuration):

ANFO	to 10,100 kg
Fortan™	to 16,500 kg
Fortis™	to 17,000 kg

Manufacturing and delivery rates

Augered products	up to 750 kg/min
Pumped products	up to 400 kg/min

Control

In-cab microprocessor controller

Options

Deep hole hose reel

Hose depth and withdrawal rate indicator

Dewatering Unit (in lieu of Hose Reel)

Additional 25 NB delivery hose system

Trailer towing capability

Bull bar

* Capacities based on Fortis™ and Fortan™ products
